CONSULT • DESIGN • MANAGE

MBS Interiors was born from a need to provide interior design solutions for homeowners, contractors and remodeling customers of Modern Builders Supply nearly twenty five years ago. Our parent company, Modern Builders Supply Inc., was founded in 1944 as a distributor of building materials to remodelers and builders. While our focus was, in the beginning, primarily on exterior building products it became clear there was a need for MBS to expand into INTERIOR products.

Now MBS Interiors is one of the strongest kitchen distributors in the Midwest, but we do more than just kitchens. We provide you with a complete design solution from space planning, cabinetry design and appliance selection to flooring options and plumbing collections.

Our goal is simple...we want every customer to LOVE their space. We will design and deliver a unique design solution that people will not be able to stop talking about. You will get the same personal experience no matter what your budget or design constraints may be. We will work one-on-one with you to offer education about all our products, design services and solutions to give you the personal experience you deserve.

Our Professional Design Services Include:

- Cabinetry design
- Dependable delivery service
- Space planning
- Coordinating of measurements
- Appliance selection
- Drawing your floor plan

CLOSETS page 25

Our interior design service includes a focus on crafting exquisite and functional closet designs.

TILE page 26

Ceramic tiles add sophistication to interior walls, shower walls, back splashes, and fireplaces. Porcelain tiles are sleek, and add timeless value to both indoor and covered outdoor spaces.

APPLIANCES page 27

Find the appliances for your kitchen that can provide a design compliment for a variety of tastes, right here at MBS Interiors.

OUR WORK..... page 28

A selection of our professional Kitchen & Bathroom Designers work.

HomeView cabinets are frameless, with full access and full overlay styling. Panels and rail components are joined with engineered dowels, glue, screws or a combination of those components appropriate to the typical use of the cabinet. Appropriate cabinets have 6-way adjustable, soft close hinges and 5/8" melamine laminate box construction. All frameless case construction is made from commercial grade furniture board with laminated, water resistant surfaces. All cabinets are fully assembled and easy to install.

HomeView Cabinetry is proud to be KCMA certified for durability. The Kitchen Cabinet Manufacturers Association's (KCMA) rigorous, in-laboratory compliance program has measured the integrity of our cabinets through five tests covering cabinet structure, door and drawer operation and the cabinetry finish. Trust our cabinets because we trust KCMA, the organization that has set the standard for cabinets since 1965. Our KCMA ESP (Environmental Stewardship Program) certification reflects our continued commitment to preservation and conservation.

EverView Cabinetry are durable, attractive, and offer vast amounts of kitchen design possibilities. They are shipped and delivered quickly from centrally located warehouses. These quality cabinets allow you to offer value-pricing to your customers.

EverView Cabinetry is sold exclusively through MBS Interiors, a division of Modern Builders Supply, Inc founded in 1944. The manufacturing of our own exclusive EverView Cabinetry line has allowed MBS Interiors to respond to the growing market demand for a higher quality cabinet at an affordable price.

MBS Interiors has been providing interior design solutions for homeowners, as well as our contractors, builders and remodeling customers for nearly 30 years. Today, MBS Interiors is one of the premier kitchen distributors in the Midwest, providing our customers with not only kitchen and bath cabinetry, but also complete design solutions ranging from space planning and cabinetry design.

EVERVIEW
CABINETRY

Practical choices to keep projects on track and on budget. This collection of cabinetry essentials helps get the job done with a selection of stylish solutions designed for daily use.

STARMARK
C A B I N E T R Y

Combine exquisite wood types, expressive door styles, and enduring colors to create a unique and beautiful statement in your home.

As a manufacturer that focuses solely on full overlay, full access cabinetry, UltraCraft Cabinetry is an expert in providing you with the cabinet design and style that you desire. Since our cabinetry offers up to 15% more usable space than manufacturers that rely on framed construction, you'll be able to fit more items into your existing footprint. And, because we continually seek out and add the latest in ergonomic and functional hardware as well as the latest organizational accessories, you can rest assured that your kitchen will be as functional as it is beautiful.

JEFFREY ALEXANDER®
by Hardware Resources

Quality

All our products are manufactured from the highest quality materials and undergo meticulous examination to ensure only the best products reach your door. We believe strongly in the quality, integrity, and reliability of our products and offer a lifetime warranty on all Jeffrey Alexander decorative hardware.

Selection

Jeffrey Alexander offers 60+ patented and original collections plus a variety of industry standard designs in a wide range of styles and finishes. With extended lengths as well as appliance handles available in many of our collections, there's something for everyone.

Designs

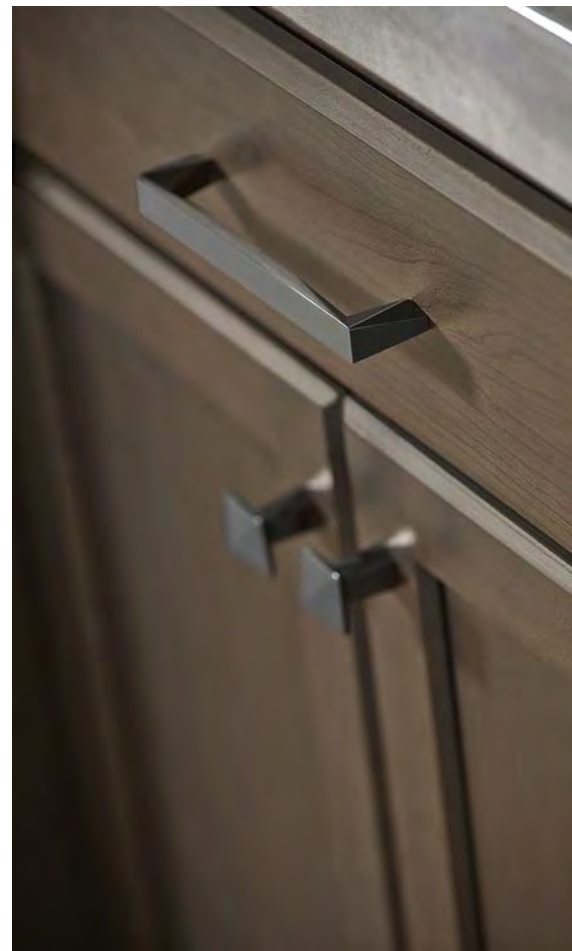

Our designs are heavier in weight with solid or flat backs, not hollow backs, adding a touch of luxury while providing a comfortable feel in your hand.

Berenson is committed to providing an unmatched customer experience. That's why we have an industry leading sample program, same day shipping to get you your product when you need it, an excellent fulfillment rate and a wide variety of quality hardware for every budget.

Berenson collections offer a wide array of designs in multiple sizes, so our decorative hardware can perfectly match your vision. With styles from traditional to contemporary across four series, you will never have to settle when it comes to choosing cabinet knobs and handles for your home. We have a variety of hardware types, from coat hooks to appliance pulls, that will give you total control over your space, so you can have the look you desire. Make your house feel like home, and have comfort knowing we take pride in producing reliable, quality hardware for you.

Over the past 25+ years, Atlas Homewares has introduced many top-selling collections that are featured in showcase houses and high design installations, nationally and internationally. The brand's impassioned designs are a collective expression of our team's love for architecture and fashion. Inspiration can come from the texture of leather, a bauble, a piece of coral, elements that many would overlook. Yet our team turns these design details into decorative hardware that makes a difference in your kitchen design.

Atlas Homewares products are available through professional kitchen and bath showrooms across the US, Canada, or online through select partners. Atlas Homewares is part of the Top Knobs family of brands, including Du Verre, and Vesta Fine Hardware.

Schaub & Company cabinet hardware is created with passion and expert craftsmanship. Every piece is rich in design and details that make a home truly stand apart. Collections like Symphony are unlike anything else in the market with precious inlays made from the most stunning materials on earth. The full catalog offers knobs and pulls in every style, from sleek contemporary to ornate luxury.

Schaub & Company continues to introduce new designs and finishes to its collections and remains a leader in the industry for its quality products and service.

Schaub

TOP KNOBS

It's all in the details – the right decorative hardware just makes the look. More than an accessory, the hardware is the jewel that draws the eye, accentuates the style and adds elegance to the space it graces. But true beauty goes beyond initial good looks. It's in the style, the depth of the finish and the weighty feel of the piece in your hand.

It's all in the details – the right decorative hardware just makes the look. More than an accessory, the hardware is the jewel that draws the eye, accentuates the style and adds elegance to the space it graces. But true beauty goes beyond initial good looks. It's in the style, the depth of the finish and the weighty feel of the piece in your hand.

Decorative cabinet hardware plays a huge role in enhancing the overall design of a space. Whether for cabinets or furniture, selecting the right pulls or knobs (or both!) is often the most exciting part of the design process, as it's the final touch that brings the whole design together.

With so many styles and finishes to choose from, it often comes down to gut instinct, to choosing with your heart and finding your “coup de coeur,” as the French would have it.

We always have decorative hardware that never goes out of style. Explore the possibilities and be inspired.

At MBS Interiors you will find virtually every countertop product on the market... granite, marble, quartz, solid surface and laminate.

Laminate

Laminate countertops have come a long way in recent years, and our sources note that laminate is making a strong comeback. Largely constructed of paper materials, laminate can mimic the look of natural materials such as stone and wood.

Pros: Affordable; versatile; mimics the look of many natural materials.

Cons: Prone to peeling, scratching, and burns.

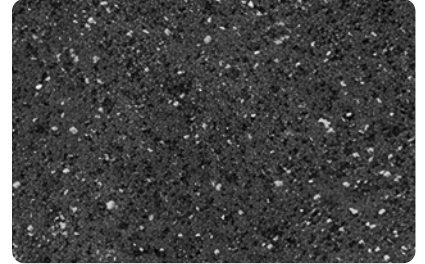

Solid Surface

Solid surface countertops are constructed of man-made materials, are generally low maintenance, and are available in almost any color imaginable.

Pros: No sealing is necessary; available in many colors and patterns; seamless; low maintenance and cost; heat resistant.

Cons: May not appear as natural as stone, prone to scratches.

Granite

Granite has dominated the countertop material market in recent years, transitioning from a luxury to a common requirement in many kitchens.

Pros: Heat resistant and generally resilient; available in endless color options.

Cons: Price; heavy weight; requires occasional maintenance, such as sealing to keep stains and marks at bay.

Quartz

Quartz runs a close second in popularity to granite. Plus, quartz countertops are extremely resilient and resistant to stains, scratches, heat, and general wear and tear.

Pros: Virtually indestructible; offered in a wide variety of colors and patterns; low maintenance.

Cons: Price; usually heat resistant only up to a certain degree (this may vary between manufacturers).

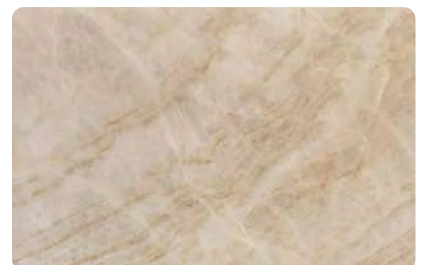

Quartzite

Quartzite is derived from metamorphic rock and is often found in white and gray tones. Quartzite is harder than granite and is known to withstand heat.

Pros: Durability; withstands high levels of heat; appearance.

Cons: Price; requires frequent sealing to avoid stains.

An edge treatment is one of those small touches that can make a big statement. From classically traditional to contemporary and dynamic, there is an edge profile to add visual interest to every space.

Bevel Edge

A bevelled edge means that countertop has an angled or rounded or edge to it. Bevel edges bring a contemporary look and may not cost extra if the bevel is on the top only.

Bullnose Edge

Bullnose is a variation where the top edge is rounded more dramatically, and a full bullnose converts the edge of the countertop to a perfect half-circle.

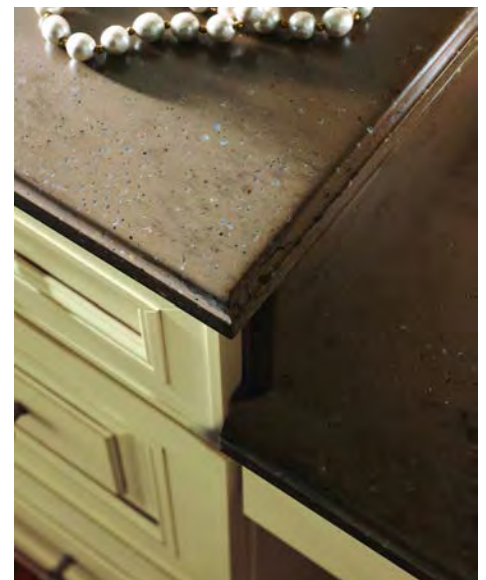

Eased Edge

A very common edge is the eased edge, sometimes called a straight edge. It has a square, boxy appearance, and no embellishments are cut into the granite.

Ogee Edge

The ogee edge consists of a tiered and curved effect that in profile resembles the letter S.

Flooring

LVT

LVT, or Luxury Vinyl Tile, is a popular flooring option known for its durability and versatility. Made from multiple layers of vinyl, it mimics the appearance of natural materials like wood or stone, providing a cost-effective alternative. LVT flooring is highly resistant to moisture, scratches, and stains, making it an ideal choice for high-traffic areas in both residential and commercial settings.

Laminate

Much like laminate countertops, laminate flooring has come a long way and can be virtually indistinguishable from hardwood. Laminate flooring is an affordable option that can be made to look just like wood, stone, or tile, all with the added benefit of being low maintenance with resistance to wear and tear.

Hardwood

For those who want the real deal, hardwood flooring adds value to your home and looks simply beautiful. Customize your hardwood by choosing from a wide variety of widths, stains, and textures. Enhance the look of your home with hardwood flooring and enjoy this long lasting low maintenance option.

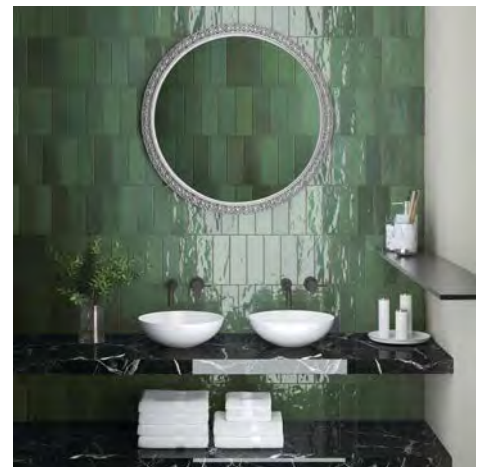

Our interior design service includes a focus on crafting exquisite and functional closet designs. Our team of talented designers will work closely with you to create a personalized and tailored storage solution that perfectly suits your needs. From luxurious walk-in closets to compact yet efficient reach-in designs, we'll utilize innovative concepts, premium materials, and customizable accessories to transform your closets into organized and stylish spaces. With our expertise, attention to detail, and commitment to creating seamless storage solutions, we'll help you unlock the hidden potential of your closets and elevate the overall functionality and aesthetic of your home.

Emser designs and produces elegant tiles for residential and commercial use. Each design is inspired and capable of transforming a room's energy. Available options include tiles crafted from ceramic and glazed porcelain. Ceramic tiles add sophistication to interior walls, shower walls, back splashes, and fireplaces. Porcelain tiles are sleek, and add timeless value to both indoor and covered outdoor spaces. Ceramic and porcelain tiles are easy to clean and can last decades without needing to replace them. Emser Tile comes in 100 percent recyclable packaging, and glazes used during production are water-based.

For more than a century, GE has been committed to producing innovative products that change the way people live. The result of thorough research and rigorous testing, GE appliances are designed for years of dependable performance. GE offers several distinct brands, each providing a design to complement a variety of tastes. From classic appearances to the latest in modern conveniences, you're sure to find the right appliances to fit your life.

Our Work

Our people make us different. We have full-time professional designers on staff guiding you through the planning process. We assist you by helping make selections and recommendations based on your wants, needs and budget.

Initial Consultation

Your first visit to our kitchen and bath design center is an exciting one, lasting about 30 minutes to 1 hour. During this time, you'll meet with your MBS designer to discuss your desired project and establish the project timeline and investment focus. We'll also schedule your next visit and provide you informative homework to bring back.

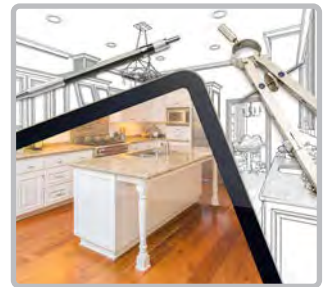

Plan Layout

Your next visit is all about discovering the design details. You can expect the duration of this meeting to be one to two hours. We first review the homework assigned from the first meeting. After this takes place, your MBS designer will discuss the space available, along with your wants, needs and desires. The various style options will then be explained. We finish up your appointment by scheduling a time for your next visit and discussing the upcoming agenda.

Refine the Design

During the third meeting, lasting one to two hours, your dreams start taking shape with a detailed plan. We'll begin by reviewing your overall design and discussing solutions tailored to your wants and needs. Your MBS designer will explain the features, functions, and benefits that suit your lifestyle. We'll then refine your personal design style and establish a comfortable pricing estimate. We'll schedule your next visit and discuss the agenda.

Detail Discovery

In the fourth meeting, your project design is refined and important decisions are made. We'll review any changes due to project requirements and design choices. Pricing options will be discussed, narrowing down the estimate to a working investment. Final measurements will be taken, and your next visit will be scheduled. We'll also discuss the agenda. (Note: You have up to 2 design refinement meetings included. Additional meetings incur a fee of \$75.00 per hour.)

Installation

The most anticipated step of the project is the installation phase. During this time, your MBS designer will visit the jobsite and inspect the installation process. They will be available for any questions you may have during this phase. This phase is exciting for both you and the designer. This is truly where dreams come true.
