IT BECOMES YOU.[™]

**KITCHEN
PLANNING GUIDE.**

KraftMaid[®]
IT BECOMES YOU.™

This guide is meant to help inspire and better define your style and kitchen needs. Once completed, you can save, print or email the document to your designer as the first step towards your new kitchen.

GETTING STARTED.

Which of the following fits you?

- New Construction.
- Remodeling.
- Commercial.

If you are updating your current kitchen, why?

- It's old and out of date.
- I need more space.
- I need a more functional space.
- Other _____

What elements of the room are you updating?

- Cabinetry.
- Countertops.
- Flooring.
- Paint.
- Lighting.
- Backsplash.
- Other _____

What is your planned investment? \$ _____

What is the top priority of your project?

- Design.
- Functionality.
- Budget.
- Other _____

YOUR STYLE.

How would you define your kitchen style?

Luxe Transitional.
Distinct, stylish, striking.

Natural & Warm.
Informal, inviting, cozy.

Light & Timeless.
Simple, streamlined,
functional.

Classically Traditional.
Authentic, refined,
time-honored.

Contemporary & Dynamic.
Sleek, modern, sophisticated.

YOUR DREAM KITCHEN.

How would you like your dream kitchen to feel?

Distinguished & Traditional.

Sleek & Cool.

Comfortable & Cozy.

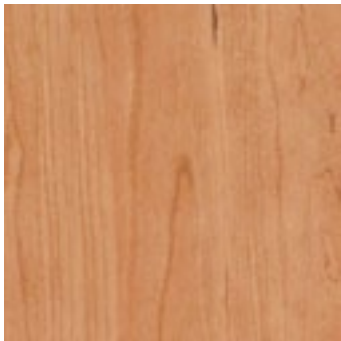

Eclectic & Fun.

Warm & Inviting.

YOUR WOOD TYPE.

Do you have a preferred wood type?

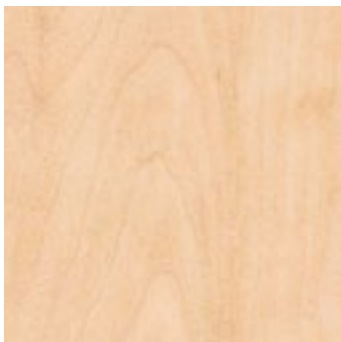

Cherry.
Elegant. Stylish.

Hickory.
Unique. Enduring.

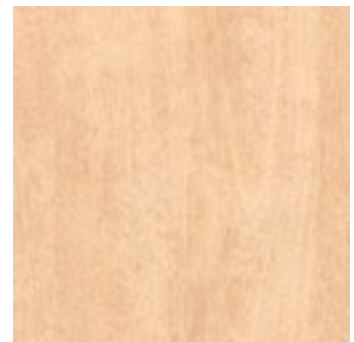

Thermofoil.
Clean. Modern.

Maple.
Radiance. Strength.

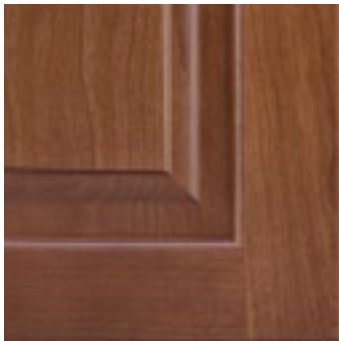

Oak.
Strong. Distinct.

Birch.
Complementary. Diverse.

YOUR FINISH TYPE.

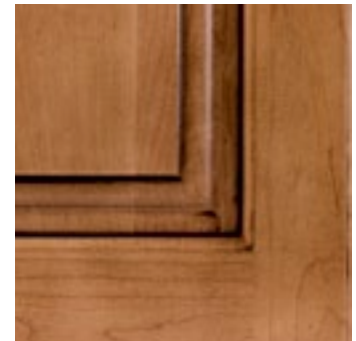

Do you have a preferred finish type?

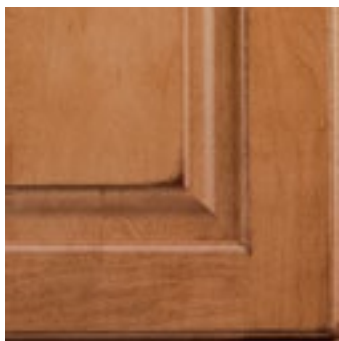

Stained Finish.
Hand-applied finish with rich, consistent color coverage.

Painted Finish.
Semi-opaque stain saturates the wood while allowing for some grain visibility.

Glaze Finish.
Glaze applied and hand-wiped, leaving soft tones in the corners and recesses of the door.

Burnished Finish.
Distressing, over-sanding and application of a burnishing stain to the wood.

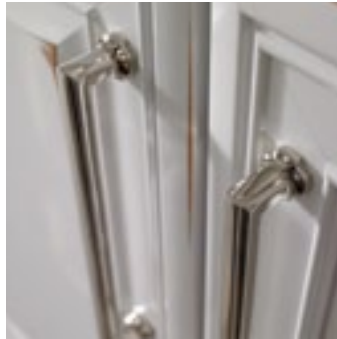

Vintage Finish.
Distressing and over-sanding process, to create an aged appearance.

UNIQUE TOUCHES.

What hardware do you envision with your cabinetry?

A knob.

A pull.

No hardware.

Have you considered a hardware finish?

Aluminum.

Bronze.

Chrome.

Distressed.

Nickel.

Pewter.

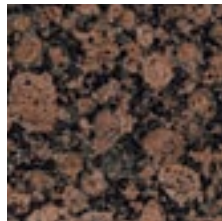

Wood.

THE PERFECT TOP.

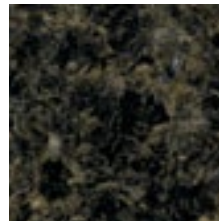

What colors do you prefer for your countertop?

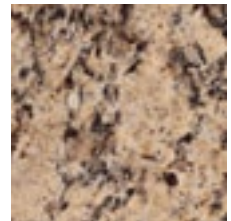

Light & Bright.

Warm & Earthy.

Dark & Dramatic.

Versatile Neutral.

What kind of sink will you be using?

- Single Basin.
- Double Basin.
- Bar.
- Farm.

What type of backsplash would you like to see in your kitchen?

- Full Height.
- Standard – 4” strip.
- None.

What type of edge are you considering?

Roundover.

Bevel.

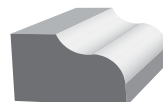

Eased.

Half Bullnose.

Full Bullnose.

Ogee.

THE NECESSITIES.

If you are using new or existing appliances, lighting, or fixtures select the item below and note its size, make, and model.

Range.

Size (HxWxD)

Make

Model

--	--	--	--

Oven.

--	--	--	--

Microwave.

Sink.

--	--	--	--

Faucet.

--	--	--	--

Countertop Accessories.

--	--	--	--

Dishwasher.

--	--	--	--

Refrigerator.

--	--	--	--

HOW TO MEASURE FOR YOUR CABINETS.

Below are the steps to provide your designer with a rough sketch of your kitchen to determine possible cabinetry placement.

What you need:

- Tape measure.
- Pencil.
- Floor plan grid (provided) or a piece of paper.

Steps:

1. Start in a corner and measure, in inches, the distance to every item on that wall from the corner.
2. Do the same from every corner, marking down all measurements on your sketch.
3. Make sure to include the measurements from outlets, light switches, ledges and/or soffits.
4. Include window and door casing widths.
5. Note the height of windows and outlets from the floor.

HOW TO MEASURE YOUR COUNTERTOP.

You can estimate the size of your new countertop by using your cabinet drawing to mark your countertop measurements. Once you have measured, you can input the numbers into the form below to find an estimate of total square footage.

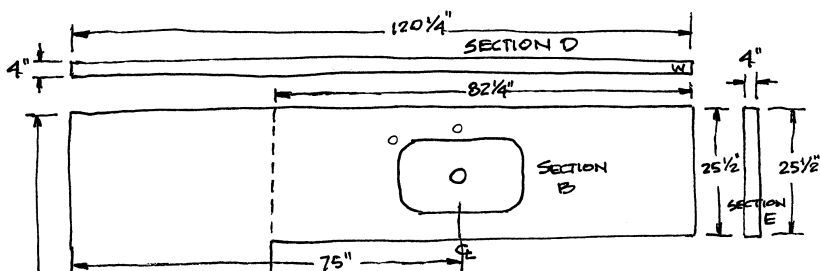

What you need:

- Tape measure.
- Pencil.
- Floor plan grid (provided) or a piece of paper.

1. Measure the length and depth in inches of each countertop section needed.
2. Make sure to include the cutouts for sinks or other appliances and backsplashes.

Enter the length and depth of each section below to calculate the total square footage (Length x Depth ÷ 144 = Sq. Ft.).

Section.	Length (inches)	Depth (inches)	÷ 144	Total Square Feet
A	<input type="text"/>	<input type="text"/>	÷ 144	<input type="text"/>
B	<input type="text"/>	<input type="text"/>	÷ 144	<input type="text"/>
C	<input type="text"/>	<input type="text"/>	÷ 144	<input type="text"/>
D	<input type="text"/>	<input type="text"/>	÷ 144	<input type="text"/>
Total Sq. Ft.				<input type="text"/>

Calculations Guidelines:

- Round up each measurement to the nearest whole number (For example: 82.25 = 83)
- Round up each square foot calculation to the nearest tenth (For example: 20.055 = 20.1)

YOUR DESIGN SUMMARY.

Save, email or print this page as a comprehensive record of your new kitchen plan.
